Clay beads galore!!
Reviewed in the United States us on April 1, 2023

If you're looking for a great starter set of clay beads, this is it! I couldn't believe how much was included in this clay bead set. We have enough to make necklaces and bracelets for my daughters and all of their friends. They love all of the beautiful colors in this set. We'll be busy for quite a while with this.

Theres barley any of each color, way smaller box's than they looked in the picture, good for a kid but not for someone who makes bracelets on a daily

Great gift

I bought this for my daughter for Christmas and she's absolutely in love with it. The variety of beads and colors is fantastic for the price. The only draw back is the plastic string that is in the kit doesn't knit well to itself so ending bracelets and necklaces is difficult. It also doesn't stretch well if at all but I got her some thin elastic and it works better.

Love the colors and bins that they come in! All inside another excellent cardboard box!
Many hours ahead to enjoy!
Plastic which makes it more sturdy than clay that would break easily.

Bought this as a Christmas gift for my 11 year old daughter. She is having a lot of fun and making some awesome pieces. I like that they come in separated containers to keep everything organized and neat. The colors are really nice. Overall great product!

Neat balloons, but smelly.

The balloons have a smell to them because of the designs on them. Only a problem if you inflate a lot by mouth. Using an air compressor to inflate them is the way to go.

Tough, but odd smell/taste
Reviewed in the United States on May 10, 2022
Verified Purchase
Bought these for my autistic son since he loves balloons and I recently gigured out that he loves when I draw faces on so I searched for these specifically. And he absolutely loves them! He asks for one of each color and lines them up against the couch in color order. And they're SO DURABLE!! I mean...I inflated some of these several weeks ago and they're still going. Unless he just sits on them and tries to bust them, they hold up.

The only problem is that there is a very odd permanent marker type of smell and moreso a taste they give off esp when inflating them. Makes me a bit concerned about the safety of the materials/ink used....but I guess it's worth the risk for now. I might buy them again, but I'm going to try some other brands first after these run out. That smell kinda sus....

Good but be careful
Reviewed in the United States on October 18, 2022

I liked the expressions on the balloons but they were actually imprinted on the balloon which I believe caused some compromise to the integrity of the balloon because they busted easily.

Balloons were exactly what I expected and needed. Good quality. I did not use them with helium but sure they would have done well filled with that also

- Rubber sole
- The retro smiley design and cowboy hat add charming personality to these shoes, and the smiley slippers are cute enough for everyday wear.
- Soft plush lining and slip-on design for easy wear. They make your feet feel as comfortable as going from cloud to hard floor.
- The rubber waterproof sole has a bump texture to absorb noise when walking on the floor. Safe and reliable, good anti-slip drainage effect.
- Great for indoor and outdoor use. You can wear them casually at home or go out without changing your shoes. Also great for travel and vacation.
- The cute smiley face shoes are a good gift choice for girlfriends, mothers, daughters, etc. to relieve tiredness
